After Count Day Checklist

Why Ed-Fi

- Not count day driven
 - Beginning of Year – Mass Processes create baseline
 - Rest of Year – Transactions submit data as it changes
- MiDataHub pulls data based on Count Day
- You control automated transactions
 - Toggle transactions on/off
 - Set submission schedule
- You control sending batches, if needed
- More ready access to data
- Downstream applications interaction

Ed-Fi Now

- Descriptors
 - If you ran Load Descriptors & Types in March
 - Rerun process after 2024-MI.m
- Coming Soon
 - StudentSchoolAttendanceEvents Resource
 - StudentSchoolAssociation Primary Enrollment
 - StudentSchoolAssociation ExitWithdrawDate

Ed-Fi Next Year

- No separation of Programs/Student Programs
